STUMBLE GUYS™

PLAY WITH YOUR CARDS!

AIM OF THE GAME:

Be the first to use up all your cards.

HOW TO PLAY:

Each player is given eight cards, face-down. Without looking at their cards, the player whose birthday is the closest starts the game by turning over their first card and putting it in the middle. The game continues in a clockwise direction.

If a player turns over a **METAL** card, all the players must put their hands on top of the central pile of cards. The player whose hand is last on the stack takes the **METAL** card.

If a player turns over an **EMOTE** card, every player must add a card to the middle as quickly as possible. The last player to throw their card onto the pile has to take all the cards and add them to the bottom of their stack.

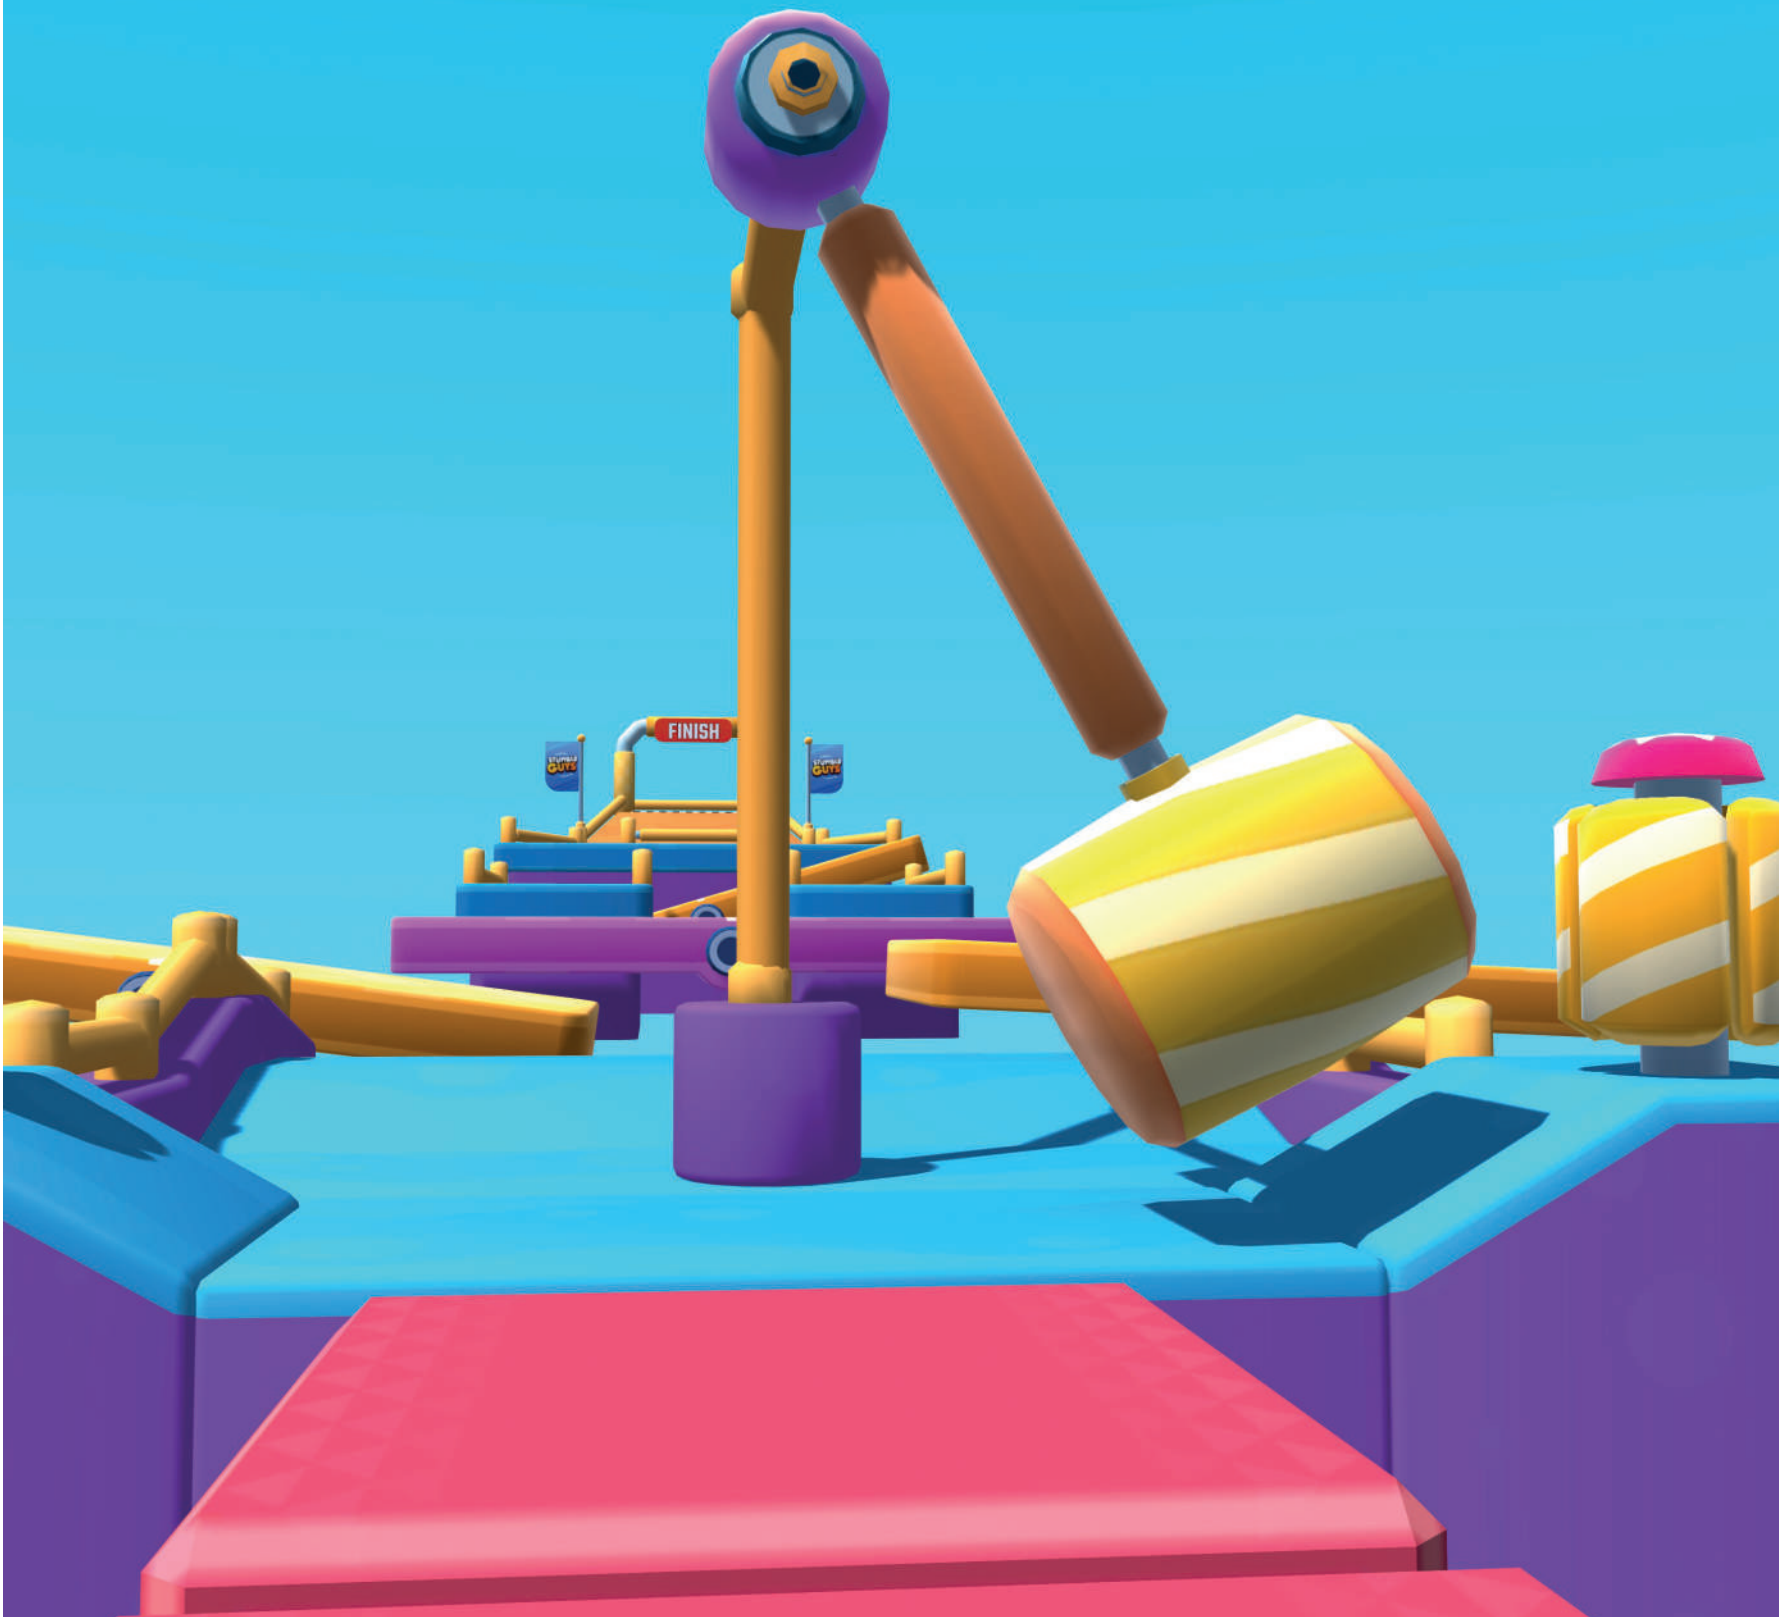

WATCH OUT! It doesn't matter if one of the cards added is a **METAL** card, there's no need to put your hands on the pile.

If a player draws the **PRESENT** card, the player to their right must take three cards from the central pile.

If a player turns over the **LOL** card, they can discard another card as well.

The game continues until one player runs out of cards.
